HOW TO USE THIS WIKI

In order to add a new Project in wiki XBRL, it is necessary to keep in mind the following notes:

Before you submit a new project we suggest you:

1. Decide in which of the following sections you wish to include your XBRL project:

- XBRL Projects in the World
- More on XBRL Initiatives
- XBRL Industry Solutions
- Academic Projects
- Open Source and XBRL *

2. For each project we suggest you use the current structure. Please include the following information:

- Title of the project
- Project Description
- Project Web Site **

Once you have decided on which section you wish to add the project to as determined by reference to 1. above and you have all the information as detailed in 2. above, go to URL:

<http://www.xbrlwiki.info/>

In this link, you can find a sections list as detailed in 1. above. Please choose your section.

The Wiki automatically assigns the numbering when you add a new project.

Note: If the selected section is "XBRL Projects in the World" or "More on XBRL

<http://www.xbrlwiki.info/>

Initiatives”, then you should to choose a country.

If you want to add a new project within the country “**SPAIN**”, click on the “**edit**” link that is on the tab of the text editor:

The screenshot shows the XBRL Spain wiki page. At the top, there is a navigation bar with tabs: **article**, **discussion**, **edit**, **history**, **move**, and **watch**. The **edit** tab is highlighted. Below the tabs, the page title is "Spain". A pink arrow points from the **edit** tab to the **edit** link in the "Local Organizations" section. The "Local Organizations" section contains a list of four items: 1 Local Organizations, 2 SIF- Financial Information Exchange system, 3 Financial Information Exchange System, and 4 Bank of Spain Central Balance Sheet Data Office. Below the list, there is a paragraph of text and a list of four links. The left sidebar contains navigation, search, and toolbox sections.

Then, it will show a text editor that looks just like the following picture:

The screenshot shows the 'Editing Spain' interface. At the top, there are navigation tabs: 'article', 'discussion', 'edit', 'history', 'move', and 'watch'. The user 'Juliansantoyo' is logged in, with links for 'my talk', 'my preferences', 'my watchlist', 'my contributions', and 'log out'. The editing toolbar includes buttons for bold (B), italic (I), underline (U), strikethrough (ABC), link (Globe), unlink (Globe with slash), source (code), undo (curved arrow), redo (curved arrow), and a minus sign. The main editing area contains the following text:

```
== Local Organizations ==

In October 31 the "Instituto Nacional de Tecnologías de la
Comunicación" (INTECO), the "Dirección General de Coordinación
Financiera" with the local organizations, "Caja España", the
"Asociación XBRL España" and the "Ayuntamiento de Cacabelos"
signed an agreement about a XBRL experience in order to improve
the efficiency and transparency of economical and financial
information.

*http://www.xbrl.org.es/notas/27.html
*http://www.senado.es/legis8/plenos/ds_20060620.html
*http://www.xbrl.org/Madrid%20Presentations/Presentations/Public

== SIIF- Financial Information exchange system ==

Credit institutions participating in the project from the
beginning: SCH, BBVA, Banco Popular, Banco Cooperativo Español,
CECA, Caja Madrid y Caixa

Working group created to: Introduce XBRL Standard, present a
modular solution, analyze functional and technical requirements,
```

Before looking at the layout in detail, is useful to understand how headings and sub-headings are managed in wiki.

Pairs of the *equals* sign = are used to manage the different levels, starting with a pair of two *equals* signs as follows:

<http://www.xbrlwiki.info/>

= = Heading = = denoted by a pair of two *equals* signs
= = = sub-heading = = = denoted by a pair of three *equals* signs
= = = = sub-sub-heading = = = = denoted by a pair of four *equals* signs
= = = = = sub-sub-sub-heading = = = = = denoted by a pair of five *equals* signs

And so on.

[Please note that in wiki that when you enter the *equals* signs there will be a space between each i.e = = and not == as will happen in MS Word]

{Please note that headings start with two *equals* signs, this is the top level, as a single one is reserved for creating H1 links.}

So it can be seen in the table below that = = = SPAIN = = = is a sub-heading because

= = XBRL Projects = = is the heading for this section in wiki.

<http://www.xbrlwiki.info/>

The boxed area marked 1 has the main title of the country SPAIN as explained above.

The boxed area marked 2 which contains four (4) hyphens, “- - - -“ creates a separation line between countries within the XBRL Projects section of wiki.

The boxed area marked 3 will have the title that identifies the project (in this case the title is Spanish Stock Exchange Commission); this title must be between four (4) equal signs, in two pairs of four, as explained above and as it is presented next:

= = Spanish Stock Exchange Commission = =

The boxed area marked 4 has the content of the Project. The content does not use any kind of sign or symbol.

What all that means is that in order to add in a new project called
= = = = New Spanish Project = = = = within the
= = = SPAIN = = = section of
= = XBRL Projects = =

You select the edit icon opposite “**SPAIN**” and then start inserting the new text **BELOW** the last line of text in the window. To do this it will be necessary to scroll down to just below the bottom line of the existing text.

In order to save the changes, you will have to click on the “**Save page**” button as shown below. Your attention is also drawn to the copyright rules referred to below.

== Bank of Spain Central Balance Sheet Data Office ==

The main task of the Central Balance Sheet Data Office is to
collect and store economic and financial information on the
activities of Spanish non-financial corporations in order to
obtain a better understanding of this sub-sector within the
functions assigned to the Banco de España under its Law of
Autonomy.
